AT-HOME URINALYSIS KIT

FOR VETS

## AT-HOME WELLNESS TEST FOR PETS

### About the CheckUp Product Line

CheckUp Pro provides a quick, simple and reliable testing method to observe the general wellness of cats and dogs through at-home urine testing. The CheckUp pro also makes urine sample collection stress-free & easy!

Too often, clients do not return for needed follow-up testing in spite of its importance in monitoring a patients' chronic diseases, assessing response to treatment or for adjusting treatment plans. The CheckUp Pro Line targets the segment of your client population that for various reasons, do not come in as often as they should for monitoring, or come back for evaluation of treatments. This product line is not meant to replace in-clinic testing but rather to catch those who would not have returned and to engage and encourage them to do so if there are any abnormal results.

### Applications for Vets:

- ✓ Help engage pet owners to be more active in pet's wellness
- ✓ Bridge the gap between visits from diagnosis to follow-up treatment
- ✓ A tool for consistent monitoring of chronic conditions and treatment effectiveness
- ✓ Support early detection of chronic conditions
- ✓ Encourages return visits
- ✓ Allows for clean, non-invasive urine sample collection

### CheckUp Kits Monitor the following 10 parameters:

- ✓ Leukocytes
- ✓ Nitrite
- ✓ Urobilinogen
- ✓ Protein
- ✓ pH
