

# WASHABLE DIAPERS

## DIRECTIONS

1. Gently position your pet's tail through the hole and arrange the diaper to be positioned between the back legs.
2. Bring the tabs upwards around the pets belly towards their back and secure the Velcro so that the diaper is a snug fit.

**NOTE: You want the diaper to be snug to prevent leakage and to stop your dog from removing the diaper.**

## SIZING

It is recommended to measure your dog's waist in front of their back legs. Breeds suggested are only a guide. Always measure your dog prior to purchase.

SIZE	BREEDS	WEIGHT	WAIST SIZE
<b>XSmall</b>	Young Puppies, Toy Breeds and similar	2-4kg	20-26cm
<b>Small</b>	Maltese, Pugs and similar	4-7kg	26-34cm
