

DOG SOCKS - SIZE CHART

All dogs feet vary in size, just like people!

Please use the below instructions to properly measure your dogs feet before you purchase!

How to Measure

Have your dog stand on a piece of paper. | Mark the front, back and each side of the foot.

Measure the length and width of the marks on your paper. | Match as close as possible to the listed measurements.

Note: All four paws should be measured and the largest measurement kept. The width of the paw should be slightly smaller than the width of the sock.

Sock Measurements

Why do dogs need socks?

- Prevents infections on the feet
- Protects feet from salt/frostbite in the snow
- Keeps feet clean while playing outdoors
- Keeps feet safe from hot/course ground, glass, sand, etc.
